Boil Water Advisory – **LIFTED As of 22 Oct.20**

We are pleased to announce that the Boil Water Advisory that was issued yesterday as a safety precaution has been lifted.

All the lines have been flushed and the chlorine residual verified. The water is safe to consume.

The tea brown colour that some homes experienced was iron turbidity. Fire Hydrants have been flushed in an effort to clear this from the system.

If anyone experiences high turbidity/color in the potable water they should flush the outside tap until the water runs clear. If it does not run clear then please email gregc@vanmarengroup.com & directors@osoyooscottages.com or call/text 250-315-8248 or contact our property manager Pacific Quorum our man contact is Svitlana Kharsika lanak@pacificquorum.com
