

Stelkia Homeowners Corporation

Gym & Hot Tub Opening

Since the Covid pandemic shutdown started last March the Stelkia Homeowners Corporation Board of Directors (BOD) has done everything possible to make sure all the people at the Cottages stay safe.

We developed a good pool opening plan that was approved last summer by the local health authorities, and we had a successful summer with zero people getting sick from Covid at the Cottages.

The BOD has developed and received health authority approval for a Gym/Hot tub opening. We had hoped to get the Gym and Hot tub open before Christmas.

Unfortunately with the spike in positive cases and the increase in deaths we decided to back off the plan until things improved in the South Okanagan.

Our goal is to get the facility open as soon possible after the rate of infections go back to reasonable numbers.

We will send a notice to all owners when things change.
